Hungarian Water Partnership

The multi-stakeholder network of water industry companies from Hungary offering innovative solutions to water challenges worldwide

Hungarian Water Partnership (HWP) is a non-profit professional organisation supporting the development of transferable knowledge, products, solutions and services of the Hungarian water business sector along with its entry into the international market. HWP's members are Hungarian owned, export oriented water industry companies as well as enterprises with connections to the field. HWP is operated by the Hungarian Water Partnership Nonprofit limited company.

Our aims

HWP's main aim is to provide a ramified export promotional function to its member companies. Furthermore it focuses on making their presence on the world market cost-effective and competitive. HWP's mission is built upon the cooperation of its members. It realises its goals through partnerships between foreign companies, domestic professional organisations, export promotion and financing institutions as well as international organisations and foreign professional associations. Furthermore it cooperates with the Ministry of Foreign Affairs and Trade of Hungary, in particular with the network of economic attachés.

What we do

HWP offers a "one-stop shop" service to foreign partners interested in Hungarian water industry solutions. To that end, it has built and maintains a network of professional contacts worldwide. Furthermore, it takes part in professional conferences, webinars and other events either representing its members, or together with interested member companies. HWP also organises international business meetings and workshops, often along with partners, such as Hungarian diplomatic missions abroad. A further important export supporting activity of HWP is the processing and sharing of foreign market information.

Spheres of HWP member companies' professional activity

drinking water treatment

wastewater treatment

stormwater management

water reuse

containerized solutions

leachate treatment

air treatment

financial support

hydrogeology

tube & pipe fabrication

economic planning

complex solutions

water supply and sewerage

water management

monitoring, data collection

research and development

water utilities

water meters

Success stories of our companies

HWP member companies are present in numerous world territories. Some examples of reference projects implemented in Central Europe, the Balkan Peninsula, West Africa and South East Asia:

Municipal wastewater treatment plant in Kumasi, Ghana
Capacity: 1,000 m³/d
Budget: 10€ million

Drinking water treatment plant in Quang Binh province, Vietnam
Capacity: 10,000 m³/d
Budget: 10€ million

Stormwater treatment at the Lugoj-Deva highway, Romania
ENVIA TRP oilseparators were installed

Containerized landfill leachate treatment system in Stara Zagora, Bulgaria
Capacity: 150 m³/d

„Smart Buoys” were floated on the Danube in Vienna, Austria
Water monitoring project

Air treatment project at a waste management centre, Subotica, Serbia
Capacity: 20,000 m³/h

Arsenic removal equipment combined with a disinfectant, Hanoi (Vietnam)
donated by the President of Hungary to a kindergarten

Design of expansion for an urban water treatment plant in Yekaterinburg (Russia)
Capacity: 15,000 m³ treated w./day
Plant load maximum: 100,000 PE

Stormwater solution for NEXEN Tire plant in Žatec (Czech Republic)
1,200 m³ of corrugated steel pipes
